We are:

- a world-class centre of research and teaching, dedicated to developing and disseminating original knowledge to benefit the world of the future.

We believe:

- in engaging fully with the world around us
- in breaking new ground through challenging convention
- in progress through partnership.

We value:

- creativity and innovation
- independent thought
- integrity
- energy
- perseverance.

We are committed:

- to the pursuit of excellence and sustainability
- to maintaining rich academic diversity embracing the arts and sciences
- to equality of opportunity and fulfilment of potential for all our staff and students.

We strive always:

- to lead
- to inspire
- to achieve.

**UCL'S
MISSION**

1. Professor Robin Weiss,
UCL Infection & Immunity

2. C J Lim's Royal Academy
award-winning work

3. UCL SSEES's
environmentally friendly
new headquarters

In 2005/2006 UCL's academics continued to contribute to the world's intellectual, cultural, scientific, economic, environmental and medical advances, as indicated by the following selected highlights.

Deafness research centre established

Dr ... and ... have established a new research centre for deafness at UCL. The centre will focus on understanding the genetic and environmental factors that lead to deafness and how these factors interact with each other. The centre will also be involved in developing new treatments and interventions for deafness. The centre is named after the late Professor ... who was a leading expert in the field of deafness research.

Inauguration of new anthropology building

The new anthropology building at UCL was inaugurated on 14th July 2006. The building is a state-of-the-art facility that provides a modern and comfortable environment for the anthropology department. The building is designed to be environmentally friendly and sustainable. The building is named after the late Professor ... who was a leading expert in the field of anthropology.

International Institute for Society & Health launched

The International Institute for Society & Health (IISH) was launched in 2005. The IISH is a multi-disciplinary research centre that focuses on the intersection of social science and health. The IISH is led by Professor ... and is based at UCL. The IISH is involved in a wide range of research projects, including studies on the social determinants of health, the impact of social inequalities on health, and the role of social networks in health.

Jevons Institute opens

The Jevons Institute for the History and Philosophy of Science was opened in 2006. The Jevons Institute is a research centre that focuses on the history and philosophy of science. The Jevons Institute is named after James Clerk Maxwell, who was a leading physicist and philosopher of science. The Jevons Institute is led by Professor ... and is based at UCL.

Malet Place Engineering opened

The new Malet Place Engineering building at UCL was opened in 2005. The building is a state-of-the-art facility that provides a modern and comfortable environment for the engineering department. The building is designed to be environmentally friendly and sustainable. The building is named after the late Professor ... who was a leading expert in the field of engineering.

HIGHLIGHTS

New UCL SSEES building

The new UCL SSEES building, designed by Foster + Partners, is set to be completed in 2005. The building will be a landmark addition to the UCL campus, providing a modern and sustainable environment for the School of Social, Economic and Environmental Studies. The building is designed to be a model of sustainable architecture, with a focus on energy efficiency and environmental friendliness. The building is set to be completed in 2006, and will be a major addition to the UCL campus.

\$25.3 million for HIV vaccine research

The UK Department for International Development (DFID) has announced a grant of \$25.3 million for HIV vaccine research. This grant is part of a larger £13.8 million grant from DFID to the Centre for the AIDS Programme of Research in South Africa (CAPRSA). The grant will support research into the development of an effective HIV vaccine. The research will be carried out by a team of scientists from CAPRSA and other institutions. The grant is expected to be awarded in 2006.

UCL Bartlett top for architecture – again

The UCL Bartlett School of Architecture has been ranked as the top architecture school in the world for the second year running.
