
Following the successful launch of the UCL Careers Extra Summer Internships Scheme in 2022-23 we are pleased to announce that the scheme will be running again in 2023-24. Thanks to a generous donation from one of our alumni we are providing funding opportunities for up to two UCL Careers Extra student interns to work with your organisation during Summer 2024 (between 10 June and 20 September).

UCL Careers Extra students are all UK undergraduates from under-represented groups so hosting a Careers Extra intern can support the diversity goals of your organisation. [You can find out more about Careers Extra here.](#)

How will I benefit as an employer?

- ◁ You are provided with funding to host up to two UCL Careers Extra student interns.
- ◁ Each student will work with you for 140 hours (four weeks full time at a maximum of 35 hours per week or part-time work over a longer duration) on a project or projects
- ◁ Your intern can support you with a project or business development initiative that will move your organisation forward.
- ◁ Your intern will provide you with fresh perspectives and bring new talent to your organisation.
- ◁ Hosting a UCL Careers Extra student can support the diversity goals of your organisation.

Eligibility:

To participate in this scheme your organisation must be:

- ◁ **Registered and based in the UK**
Your organisation must be registered and/or trading in the UK to be eligible for the scheme.
- ◁ **Either a Charity/Social Enterprise (CIC) or SME**
We define SMEs as having 250 or fewer employees and an annual turnover below \$50 million.
- ◁ **Able to provide the intern with a desk or space at which to work.**
We consider that an in-person internship is most beneficial to students but the work project(s) can be partial^{ly} virtual.
- ◁ **Able to provide support and supervision to an intern**
Students will bring many skills but the internship scheme is designed also to support them in acquiring or enhancing additional skills that will be valuable for their careers. It is therefore required that interns are allocated support and regular supervision to maximise their learning.
- ◁ **Offering an internship exclusively to a UCL student who is not:**
A current/previous paid employee/intern

A shareholder of the business
A relative to the owner(s)/director(s)

Funding

< Payment to Intern

The interns on this scheme must be paid the London Living Wage (£13.15 per hour) **via your payroll**. Companies will then invoice UCL for the funding amount once the internship is completed.

will fund 50% for SMEs.

Places on this scheme are limited and in assessing proposals we will look for internships which offer students a range of learning opportunities with clear support and supervision.

We are looking for a variety of internships and will be prioritising proposals which cover the range of skills students have identified as important to them. These include:

- < Analysing data/statistical analysis.
- < Writing up reports.
- < Working to a brief.
- < Technical skills excel and coding.
- < Presenting/public speaking.
- < Working with/for clients.
- < Dealing with financial documents/processes/concepts.

Students are keen to undertake hands-on projects which involve interacting with a range of employees at different levels and/or departments within the organisation.

We also aim to offer students internships in a variety of sectors, which will be taken into account when selecting internships for inclusion in the scheme.

Important Dates

| | |
|---|--|
