

Welcome to the first MSc Urban Studies alumni newsletter! Since we began back in 2008, over 130 students from an impressive array of disciplinary, professional and geographical backgrounds have graduated from the programme. We are keen to keep in touch and share recent activities of staff and students at UCL. Any further news items or suggestions, do

Sarah's second novel, \_\_\_\_\_, was published by Picador in \_\_\_\_\_

specifically I seek to explore and analyse ways in which transgender peoples' identities and embodied lived experiences are negotiated in relation to the contours of hegemonic heteronormative and cisnormative regimes that often (in)form the nature and content of socio-spatial relations.

(2008). PhD in Transportation Systems at University of Porto.

Supervisor: Teresa Galvão Dias. Research topic: A user collaboration model for urban passenger transport. This thesis is concerned with the development and evaluation of a model of collaboration between users of urban passenger transport. The model explores the opportunity created by the widespread adoption of advanced personal mobile devices with ubiquitous access to wireless communication networks, to harness information that is distributed through

And thank you for your [book recommendations](#) for students on the course.

Please join the [MSc Urban Studies LinkedIn page](#) that Yvette has set up as well as the [Facebook page](#). There's also the [UCL Urban Lab twitter](#) and the occasional [StadtKlang](#) music nights in London.

If you have any information (e.g. research opportunities, internships etc.) you would like to send to the alumni email list, please email [urbanstudies@ucl.ac.uk](mailto:urbanstudies@ucl.ac.uk) and we will forward them on.

As ever, please recommend the programme and forward our website link to those who might be interested: [www.ucl.ac.uk/urbanstudies](http://www.ucl.ac.uk/urbanstudies)
